## SECURING MINING CLAIMS.

If a bona fide mining claim, located in good faith, is good for anything, the sooner that fact is ascertained the better for the locator. If it really prospects well and is worth developing, it cannot be worked too diligently, and the fortunate owner cannot do better than to make his title to the claim or location complete and secure as soon as possible, meanwhile doing all requisite assessment or holding work. The following from the San Francisco Mining and Scientific Press is practical and to the point, especially in the matter of securing the United States patent:

The first of January will soon be here, and negligent miners are again reminded that they must do the work required by the laws of the United States on or before that date or they will be liable to lose their claims. Plenty of time and warning has been given and claim owners will have no one but themselves to blame if they forfeit their rights by not attending to their property in time.

If certain claims are of any value, they will not be abandoned by the locators, and it will probably happen that some of the "jumpers" will get fooled in some cases, supposing that work is not done because it has been neglected until late. As a general thing, however, none but claims of some value will be liable to be jumped, and many of these have no doubt been "spotted" by this time by parties on the lookout for just such chances. A good many miners will, of course, put off doing the necessary work until the last minute, intending to commence on the first day of January. Those who are left out in the cold by procrastinating can blame only themselves.

The best way, no doubt, for bona fide settlers to do is to patent their claims at once. This will save annual expenditure and give a good title at the same time. A patent is a very good thing to hold in case of a sale. The English purchaser of mining property will not look at anything which is not covered by a United States patent, and it is an incentive to any purchaser to know that he is sure of a good title.

In this connection it is proper to suggest to locators the propriety of having the original location properly surveyed by a competent surveyor, so as to have a perfect record to proceed upon when making application for a patent. The careless way in which measurements are usually made in original locations makes it difficult to get the official surveys for patents in accordance with the legal regulations. A lawyer in this city told us not long since that in more than half the cases where patents were wanted it was impossible to get the surveys to correspond with the original record of location. In many cases the ground was formally relocated to save trouble. It is always best to have a preliminary survey made before taking steps toward applying for a patent.

Mr. J. Cahill, Farragut House, Salem, Mass., caught a severe cold, which terminated in lumbago. He was cured by less than a bottle of St. Jacobs Oil as if by magic.

### TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause—liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

It is a fact! BROWN'S IRON BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old druggists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially "bitters," are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with BROWN'S IRON BITTERS. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.

## EASTERN DISPATCHES

Logan Still After Porter.  
WASHINGTON, Dec. 12.

If anybody supposes that Logan would surrender his convictions on account of Grant's change of views on the Fitz-John Porter question he would have been undeceived if he had heard the Senate proceedings yesterday. Logan said, with energy and feeling: "I will demonstrate before the country, if I cannot convince the Senate, that I am right in the matter. The Fitz-John Porter bill cannot pass this Senate *mem con* or without discussion. Persistence in wrong does not make it right. One Senator says great wrong has been done. I do not think it is so. I say no man was more justly convicted than Fitz-John Porter and I stand here now to defend my position before the country. I believe I have facts upon my side. I am ready to sustain them. I am ready to take up this case when the Civil Service bill is disposed of." Senator McPherson then referring to General Grant without naming him, said: "There are gentlemen not less distinguished in military and civil life than the Senator from Illinois, who have changed their views upon the subject." General Logan, at the first public mention in the Senate of General Grant's recent advocacy of Fitz-John Porter, became intensely earnest and said: "Inasmuch as the Senator from New Jersey intimates that persons have changed their minds, I have to say that I have known people to change their minds upon very flimsy pretenses."

**Gorgeous Decorations for a Kanaka.**  
OMAHA, Dec. 11.

King Kalakaua's Chamberlain, Colonel C. H. Judd, who, with his party, passed through Omaha yesterday homeward bound from Europe, has, as is learned from some of his acquaintances in this city, purchased in Europe some of the necessary insignia of royalty, including a crown, sceptre, robes, etc., for Kalakaua. The robes and royal diadem will be used at the coming coronation of the King and Queen. They are modeled after those of Russia, and the crown to be worn by the King is larger than that of his consort. They are nearly oval, and each is ornamented with a cross at the apex brilliantly studded with diamonds. The rims, which are of solid gold, are inlaid with diamonds, and on either side are gold kalo leaves, a plant highly prized by the people of Hawaii. The King's sceptre is composed of solid silver, inlaid with gold. The robes are purple, with ermine border. The King has been already crowned according to the customs of his own country, but on February 12 he will be again crowned in the style that prevails in the courts of Europe. Invitations to attend the coronation have been sent to the President of the United States, and to the different rulers of the Old World. The ceremonies will take place in the new palace, which is a magnificent structure.

**Work of the Shipping Commission.**  
WASHINGTON, Dec. 12.

Since the meeting of Congress the Joint Shipping Commission have held their meetings here, confirming the action of the sub-commission as to a reduction of hospital taxes; also, the repeal of alleged onerous consular fees and regulations; repeal of three months' seaman's wages payment; adoption of a clause against blood-money and free supplies for ship. At a meeting to-day other measures of relief were particularly agreed on, including a plan of rebate on materials for ship building purposes, suggested by the San Francisco Board of Trade.

WASHINGTON, Dec. 11.

Yesterday morning he presented himself at St. John's church where the President worships, but being quite early was told by an usher that he would have to wait in the vestibule until service began before he could be provided with a seat. After waiting half an hour the Duke was informed that all the seats were filled, and he thereupon returned to his hotel. It is needless to say the Duke was not recognized.

**A Nest of Scoundrels.**  
WASHINGTON, Dec. 12.

The citizens' committee had an interview in jail to-day with O'Leary and Murphy, convicted three-card monte and bunks men. Each detailed the circumstances of many robberies, including the government printing office money theft, and gave the names of thieves and detectives who stood in, as well as the percentage of proceeds of robberies, of which detectives received twenty per cent. Detectives, it was said, planned some of the jobs and selected the men to execute them. Murphy and O'Leary gave an account of the Christian diamond robbery and said the diamonds of the ex-minister, valued from \$15,000 to \$20,000, were disposed of at great sacrifice in

## HIGH-PRICED REAL ESTATE.

The Board of Commissioners yesterday voted to pay M. J. Smith \$800 for a lot fifty feet square immediately in front of the Court House on the other side of the street. It seems that the Commissioners made the purchase without giving the matter much thought, or knowing what use the county had for a "plaza." They understood that the county had a title for all of that plot situate in the square bounded on the south by A. J. Hatch's property, on the east by the property of J. F. Jones et al on the west by south Virginia street and on the north by Mill street. The truth is, however, the county has not got a title to one single inch of the land referred to. When the Court House was located on its present site, M. C. Lake, it seems, agreed to donate the land for a plaza and deed it to the county, but he has never executed a deed. Tax-payers and property holders in town are pretty generally of the opinion that the county did not want the land at any such price just now, and censure the Commissioners for making the purchase. They all think, too, that the price agreed upon is entirely too much. Those who are good judges of real estate value do not appraise the property bought at even \$200. Commissioner Frey, Chairman of the Board, thinks the price was too high, but says they could not get it for any less. It is quite evident that the Commissioners made a mistake in the matter by rushing blindly and voting away the people's money without knowing what they were doing. There are many things the county needs more than a plaza, and it seems to us to be poor economy to vote away money for such purposes so long as our streets and highways are in the condition they are.

## THE TURF IN 1882.

The best records for all ages of the turf have not been badly molested in the season of 1882. The great trotting record of Maud S., 2:10 1/4, was not disturbed, neither were any of the other trotting records for all ages. The pacing record of Little Brown Jug, 2:13 1/4, remains unchanged, as does the rest of the pacing time. The only changes were in the record of Ten Broeck of 2:49 1/4, three years, ninety pounds, at Monmouth Park, September 9, 1875, which was lowered this season by Ben d'Or, four years, who carried 125 pounds and made the distance in 2:49. This was truly a great performance, and was made early in the season. Glidelia, the chestnut Bonnie Scotland mare, has reduced the one and three-quarter mile record of 3:0 1/4, made August 6, 1881, with 124 pounds. Glidelia went the distance with 116 pounds in 3:01. The best of all was the lowering of the three mile record of Thora by Linda Stanhope. Thora went three miles last year with ninety-nine pounds in 5:25 1/4, while Linda Stanhope, carrying 102 pounds, made a record of 5:25. Eleven new horses joined the 2:30 class.

Morgan, the man who is said to have revealed the hidden mysteries of Free Masonry, has again been brought prominently before the world by a letter written by the late Thurlow Weed, and published since his death. Since its publication there appears to be hundreds of men now living who are conversant with all the facts, and are willing and indeed anxious to tell what they know of the celebrated case. Every newspaper in the country is offered the story of some old "know-it-all," with a request that it be published.

The sorghum crop is now large in Iowa, Kansas and Missouri. A committee of experts have recently reported to the Agricultural Bureau that sugar can be made from both sorghum and corn, and that the Western States would then be able to supply nearly the entire amount needed for home consumption.

Hon. C. S. Varian has given his views on the question of calling a State convention to the Chronicle.

Carrying Coals to Newcastle.

Sierra Valley is noted as a beef producing locality, and annually supplies thousands of cattle to the surrounding country. Among other towns supplied is Truckee, says the Leader, yet beef can be purchased cheaper there and shipped back here again for a much less price than the same article can be purchased of our local dealers. What is the matter? It is true that beef is high, but it strikes us that we ought to be able to furnish meat at as cheap a rate as any other place in the State. Beef retails in the valley for 13 to 20 cents per pound.

Accounted For.

The Christmas stock of jewelry, silver ware, etc., displayed by William Goeggel causes strangers to wonder how so small a town can justify a merchant in carrying so extensive a stock. The reason is simple enough. Goeggel is satisfied with a small profit, hence he turns his entire stock into money three or four times a year. That enables him to keep up with the times and always have choice goods for his patrons to select from.

Mathematical Problem.

Here is a chance for some of the young Reno mathematicians to show what they can do. Any pupil in the public school is invited to work out the problem and hand it in at the Gazette office. How many square yards of plaster would it require to plaster a room 12 feet 10 inches long, by 10 feet 10 inches wide, with walls 10 feet 10 inches high.

HOW THEY DO IT IN LANDER.

The Manner of Summoning a Recalcitrant Jury.

In Lander county they have a novel way of selecting juries, or, rather, preparing them for selection; and it shows the absurdities of our jury system. It is said that a certain mining corporation has the town of Austin by the hair of the head, so to speak, and woe to the litigant, be he rich or poor, who dares to dispute their right to yank out a tuft whenever they like, in a Lander county court. Bob Lindsay tells the following good story of his experience in a case where his client was defendant in a case with the company, on the 7th. Mr. Lindsay went to the Lander county seat to try a case where his client sued to recover possession of a lot of rich ore alleged to have been illegally taken by the corporation. On the morning the case was called, Bob announced himself ready for trial, whereupon twelve men were called as a jury to try the case. Lindsay commenced his questions touching on their competency to serve. The first juror's name was called and Bob gleaned the following (to him) startling revelations:

Where do you live, sir?  
Hin Haustio, sur.  
What is your occupation?  
Ha miner, sur.  
Where do you work?  
No where hat present, sur.  
Where did you last work?  
Hin the — mine, sur.  
When did you quit work there?  
Hon the fourth hof the month, sur, hat 13 o'clock, noon.  
When were you summoned as a juror?  
Hat 10 o'clock on the fourth, sur.  
Does the company owe you anything or do you owe the company anything?  
No, sur, they paid me hof, sur.  
Do you intend to go to work for the company as soon as this case is over?  
Well, sur, Hi don't know what may appen, sur. They might give a fellow a job, you know, hand Hi couldn't refuse it these 'ard times, you know.  
Have they discharged you before, when you were summoned as a juror?  
Ho, hoften, sur.

The crowd in the court room now had a hearty laugh at the Reno attorney's expense, evidently knowing what was to follow. Nine out of the twelve jurors, in substance, went through the same sort of examination. Out of the 25 jurors drawn in the panel, 22 were men in the employ of the plaintiffs in the case. Everyone of these was discharged as soon as drawn, paid off, and hence become competent jurors to sit in a case in which the company was interested. Bob says he was forced to take it as a good joke. So, before swearing the jury, he dismissed the action without prejudice and commenced a new action immediately, which he intends moving to the U. S. Circuit Court, to be tried at Carson.

State Prison Escapes.

The Carson Tribune of last evening says: I. H. Blevins and Robert Chinn escaped from the State Prison about 3 o'clock yesterday evening. Blevins has been milking cows and feeding hogs for a month. He had to go all over the adjoining ranches every afternoon to drive in the stock. About three weeks ago he got his ankle badly sprained, and Chinn, the cart boy, was ordered to do Blevins' work. Yesterday for the first time Blevins went out with Chinn to help get the stock, and it seems they both forgot to return. Blevins' ankle is yet weak, but as he and Chinn are in for horse-stealing it is not likely they will walk far if an opportunity to steal horses presents itself. Blevins is thirty-two years old, weighs 187 pounds, complexion dark and swarthy. Chinn is a smooth faced boy of eighteen, light complexion, but tanned; right eye blue, left eye gray. It is believed by the prison authorities that in hunting stock they have come in contact with some ex-convicts who are lying around Carson, and perhaps have received assistance from them in the way of clothing, money or horses. Blevins was sent from Austin; Chinn from Eureka.

Last Tuesday Wm. Tait had the misfortune to injure a finger of the right hand in such a manner that nearly amputated it. He was engaged in holding a wedge in splitting a log and was struck with a sledge, with the above result.

THE FIRE THIS MORNING.

Narrow Escape From a Serious Conflagration.

A fire occurred this morning at quarter to three, in a stable in the alley between Sierra and North Virginia streets, and if Divine Providence and considerable luck had not been on the side of the people, an extensive conflagration would have resulted. The fire was burning at least 20 minutes, and lighted up the whole neighborhood, before a move was made to extinguish it. The engines got out after a fashion, but seemed to move around as if they had made their appearance under protest. A short time before the fire a high wind was blowing which subsided suddenly, as if Old Boreas did not want to take advantage of the town. The utility of fire-plugs was clearly demonstrated. There was insufficient hose for the engines, which were compelled to remain idle while the hydrants were utilized. These conveniences were the means of saving a large amount of property, for if the fire had spread to adjacent buildings quite a number of wooden structures would have been consumed. A few spirited firemen took charge of the fire apparatus and made the most of it, and by dint of hard work confined the fire to a small place and eventually conquered it, though sparks and cinders were flying in sheets for a long distance to the eastward. It broke out in a barn, the property of A. Nadon, situated on the alley running north and south between North Virginia and Sierra street. The building contained a horse and about one ton of hay and was soon in ashes. The horse was got out. From the stable the fire spread to a small house adjoining on the south, also the property of Nadon, and occupied by Mrs. Hooper. The flames were soon licking up another stable on the north, owned by Mrs. S. D. Fannon and occupied at present by Jno. Boynton, which was also destroyed. From Mrs. Fannon's stable the fire leaped to a small dwelling house adjoining, and owned by her, which was completely gutted. At the time the fire started a perfect blizzard was raging, and it seems miraculous that any building in the block was saved. The firemen did splendid work, however, and managed to confine the flames to the three buildings burned. Nadon's loss is about \$400; Mrs. Fannon's loss will be about the same, and Mrs. Hooper will lose about \$100 worth of furniture. There was no insurance on any of the property. It is supposed to have been fired by sleepy tramps.

This very excellent institution has established a reputation second to none on the coast and now ranks with the best in the land. PROTECTING TIMBER LAND.

An Order that Will Work a Hardship in this Country

The action of the Government in putting a stop to the cutting of timber on Government land will, as do most of the laws relative to the public domain, be a benefit to some, by enabling them to gobble up the most valuable timber lands, while it will be a serious detriment to that class of citizens which the Government pretends to aid and protect, viz: the farmer, mechanic and other consumers of lumber. In this country, for instance, says the Modoc Independent, there is an abundance of timber for all the requirements of the settlers, but there is little if any surplus. While nature has provided us with good agricultural lands, she has at the same time furnished sufficient timber for the use of those who wish to cultivate and improve those lands, and while the Government is putting a stop to the waste of timber, it is taking money out of the pockets of those who, by the sweat of their brow, are endeavoring to make a living and at the same time are settling up and improving the country. In conversation with a saw-mill man the other day, he said, "I am not any the loser by this order. I can buy all the timber land I want; I can get a portable engine, and move my mill from one section to another, as the timber gives out; I can build roads to my mill, wherever it is situated. But," said he, "the lumber consumer will have to pay this extra expense; I cannot get an engine free of cost. It takes money to get land, and build roads, and I cannot go to all this extra expense and sell lumber at the prices I have been asking." Nor can he do so. If the lumber manufacturer is put to double or treble the expense of making lumber, his prices must be in accordance with such expense, and this extra expense must of course come from the pockets of the consumer, and the producing class of citizens, while the gain will go to the land speculators. We say let our timber lands be free to the use of those who wish to use the timber in building up and benefiting the country.

# Sheriff's Sale.

WHEREAS, UNDER AND BY VIRTUE  
of a judgment and decree of the Dis-  
trict Court of the Second Judicial District  
of the State of Nevada, held in and for Washoe  
county, in a certain suit therein tried and ad-  
judged, wherein Thos. E. Hayden was plain-  
tiff and Olinia Nicoletti, T. L. Lagomorsino,  
C. Chiroto, L. N. Lagomorsino and A. S.  
Lagomorsino were defendants, a copy of  
which decree, duly certified by the Clerk of  
said court, was to me duly delivered on the  
6th day of December, 1882, I, as Sheriff of  
Washoe county, State of Nevada, am com-  
manded to sell the following described real  
estate, to-wit: the undivided one fifth interest  
of the defendant Olinia Nicoletti in all those  
certain pieces or parcels or tracts of land sit-  
uate, lying and being on and along the  
Truckee river, and on and along the line of  
Washoe county and Storey county, in said  
State of Nevada, run in each of said coun-  
ties, and known and described according to  
the United States surveys thereof as the east  
half of the southeast quarter and the south-  
west quarter of the southeast quarter, and the  
southeast quarter of the southeast quarter of  
section seventeen (17) in township nineteen  
(19) north of range twenty-one (21) east of  
Mount Diablo base and meridian; also the un-  
divided one fifth part, share or interest in the  
west half of the southeast quarter and the  
northeast quarter (14) of the southeast quar-  
ter, and of the northeast quarter of the south-  
east quarter of section sixteen (16) in town-  
ship nineteen (19) north of range twenty-one  
east of Mount Diablo base and meridian; also  
of the undivided one fifth interest, part or  
share of the undivided one fifth interest of the  
defendant, O. Nicoletti, with his co-tenants  
in the aforesaid land in the ditch and water  
privileges thereto incident, on the north side  
of said Truckee river, connecting water to and  
on the above described land for irrigating and  
farming purposes, but there is excepted from  
the above described premises, and not now  
granted, fourteen (14) acres of land, conveyed by  
T. L. Lagomorsino and his then co-tenants,  
to Giacomo Arancio and others by deed dated  
February 18th, 1878, which deed is recorded in  
book 49 of deeds, pages 233 and following of said  
Storey County Records, to which reference is  
hereby made for more particular description  
of said 14 acres of land hereby excepted from  
the foregoing description of lands so mortgag-  
ed; and whereas such sale is required to be  
made at public auction, at the same place, in  
the same manner, between the same hours of  
the day and the same notice of sale, by  
publication and posting, to the highest and  
best bidder for cash, and otherwise in the  
same manner as real estate is required to be  
sold by Sheriff, under execution, when the  
amount exceeds five hundred dollars; and  
whereas I am directed out of the proceeds of  
said sale to pay to plaintiff the sum of his  
judgment against defendant O. Nicoletti  
in the sum of five hundred and thirty-six dol-  
lars, with interest on \$310 from the 5th day  
of July, 1882, at the rate of two per cent  
month till paid, together with costs of said  
suit taxed at \$236, and an attorney's fee of  
\$1195, the defendant has heretofore failed in  
redemption in said mortgage premises;  
now, therefore, as Sheriff of Washoe county,  
I hereby give public notice that I will offer  
for sale at public auction, to the highest and  
best bidder for cash, the above described pre-  
mises, in front of the Court House door, at  
Reno, Washoe county, State of Nevada, on  
SATURDAY, the 30th day of DECEMBER,  
1882, between the hours of 9 o'clock a. m. and

greeting:  
You are hereby required to appear in an ac-  
tion commenced against you as defendant by  
Jemima Jones, et al., in and for the District  
Court of the Second Judicial District, in and

been and now are husband and wife; that on  
or about Sept. 9th, A. D. 1873, you, the defend-

than a year next proceeding from the  
commencement of this action you, the  
defendant, have failed and neglected, and now

common property. Plaintiff prays to be re-  
stored to her maiden name, and for costs, and
